Best Practice No 1

Title of the practice: - Save Forest, Save Wildlife and Save Human Being

1. Objectives of the Practice:

- To create awareness about the Forest and wildlife and environment among the local villagers. To save wildlife and to conserve the forest and environment.
- To stop cutting of woods and hunting the wild animals of the forest by creating awareness among the villagers through the forest department and the students.
- To discharge social responsibility by saving human beings in various ways.

2. Context:

The forests are important for the health and well-being of people, wildlife and our planet. They are home to roughly two-thirds of all land dwelling plants and animal species. But unfortunately Deforestation is increasing day by day. In order to fight against catastrophic climate change and global warming we have to stop deforestation. Our institution is situated in the forest area. There is a sanctuary named Katepurna 2 km away from the college. The people of this area know the forest but do not understand the importance of trees, wildlife and the forest. The villagers used to cut the trees for the purpose of cooking. As well as the villagers as they do not know the importance of wild life, they use to hunt the wild animals. The college tries to prevent them from hunting the wild animals and cutting the trees through our students.

3. Practice:

Every year at the beginning of the session, the college organizes the Forest study tour to the Katepurna Sanctuary. Near about 75 to 100 students participate in the tour. The forest officers and guards guide the students and provide information of various types of trees, medicinal plants, wild animals etc. and also make students understand the importance of preservation of forest. The students help the injured animals as well as save them. The students with the help of forest department do valuable work for the wildlife and the forest. Our students are always ready to discharge the social responsibility. Whenever the unfortunate incident happens our students go there and help the needy people.

5. Problems Encountered:

It becomes important to make aware them about the importance of education as well as to bring them in the current education scenario and to try for their empowerment. and also need to understand their constitutional rights and gender equality. . The institution tries to make them aware of their rights through our students.

3. Practice:

The concept of the women empowerment is inculcated among women by holding meetings with them in the surrounding villages, in the NSS camp of the college every year. The girl students are guided properly about the various social issues like dowry death, female feticide, domestic violence, sexual harassment, public violence, health and hygienists.
